Request for Correction of Filing Receipt  
(Notice of Allowance Received)

Mail Stop Issue Fee  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This is a request for correction of the filing receipt of the above-identified patent application.

We recently received a Notice of Allowance and Fee(s) Due mailed 05/10/2005 from the Patent and Trademark Office regarding the above-identified application, with the **issue fee due August 10, 2005.**

After a post-allowance inspection of the file, it has come to our attention that there is an error on the official filing receipt as follows:

"Continuing Data as Claimed by Applicant

THIS APPLICATION IS A DIV OF 09/403,109 10/14/1999"

should read - -

Continuing Data as Claimed by Applicant

THIS APPLICATION IS A CONTINUATION-IN-PART OF  
08/809,872 FILED 07/14/1997. - -

The first page of the specification of the application states that the above-identified patent application "is a continuation-in-part of U.S. Patent Application Serial No. 08/809,872, entitled "Apparatus and Method for Local Insertion of Material in Broadcasting," filed July 14, 1997, which is a 371 of PCT/SE95/01056, filed September 18, 1995." A copy of the first page is enclosed for reference.

The transmittal form and the return post card (copies enclosed) also indicate that the above-identified patent application is a continuation-in-part of U.S. patent application no. 08/809,872.

Also enclosed is a copy of the filing receipt with corrections. Kindly send us a corrected filing receipt well before the issue fee due date of August 10, 2005.

Respectfully submitted,

Thomas Schneck

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**PLEASE NOTE the following information about the Filing Receipt:**

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."

Any corrections that may need to be done to your Filing Receipt should be directed to:
